Good morning,

Our names are Cameron and Lori Llewellyn, and we are the owners of Tidemark Construction and My Roots Styling Gallery. We are reaching out to express our support for the proposed pedestrian safety ordinance.

As business owners and residents, we drive through Dover every day for work, family commitments, and to conduct business. Ensuring safety on these roads is important not only for ourselves, but also for our clients, our employees, and for all pedestrians who use the roadways. We have noticed that the current activities occurring in the medians have become increasingly hazardous. Individuals are often seen standing very close to moving vehicles and approaching cars during times of heavy traffic, putting everyone in a dangerous situation.

Based on our observations, many of the people in the medians seem to be part of organized groups, similar to what has been reported in other cities at busy intersections. This activity goes beyond a simple display of need and instead appears to be coordinated, leading to unsafe interactions between drivers and those present in the medians.

We believe it is important for Dover to remain a safe and welcoming community, where people feel at ease driving to conduct business, attend appointments, and support local shops and restaurants. Addressing the unsafe activity in the medians is a crucial step toward maintaining this positive environment.

For the safety and well-being of our families, our clients, and the pedestrians themselves, we strongly urge support for this ordinance. Making our roads safer benefits everyone in the community.

Thank you,
Cameron and Lori Lewallyn
